📍 London, UK

Computer Science student at Queen Mary University of London with practical experience in software engineering and web development. Seeking developer opportunities. Highly adaptable with a strong ability to learn new technologies and skills as needed. Possesses strong problem-solving skills, attention to detail, and a commitment to staying updated with industry advancements. Ready to contribute to dynamic projects with a proactive and flexible approach.

EXPERIENCE

Software Engineering Group Project

University Group Project

Queen Mary University of London, UK Jan 2025 - Present

Taking a leading role in developing a full-stack pet minding web app, guiding the team, and ensuring high standards across development. Gaining experience in teamwork on a large-scale project and applying newly developed programming skills.

Algorithms and Data Structures Group Assignment

University Group Project

Queen Mary University of London, UK Nov 2024 - Dec 2024

Took the leading role in a university group project on algorithms and data structures, organising the project effectively.

Web Development Job Simulation

Moreton Bay Regional Council

Forage (virtual) April 2024

Completed a job simulation involving website planning and creation, designing the sitemap and user flow with diagram creation tools and developing the landing page using HTML and CSS.

QHack Entrepreneur Bootcamp

Queen Mary University of London

London, UK March 2024

Participated in an intensive three-day program, obtaining ideation, validation, and pitching skills. Developed vital teamwork, strategic planning, and communication abilities essential for navigating the software engineering field. Our team won the Best Pitch Award.

EDUCATION

Full-Stack Engineer Course

Codecademy

Virtual 2024 (in progress)

BSc Computer Science

Queen Mary University of London

London, UK 2023 - 2026

A-Levels

St Gregory's Catholic Science College

London, UK 2021 - 2023

Grades: Mathematics (A*), Further Mathematics (A*), Computer Science (A)

PROJECTS

View my portfolio website at www.benkodev.com to explore my latest projects and coding endeavors.

SKILLS

Programming Languages

Python, Java, HTML, CSS, JavaScript, PHP, SQL

Technical Skills

Algorithms & Data Structures, Database Systems, Mathematical Modelling

Version Control, Modelling & Tools

Git, GitHub, UML, Canva, Figma

Soft Skills

Problem-solving, adaptability, leadership, collaboration, communication, attention to detail
